VAT Services and safe e-commerce: special offer

VAT Services for European and non-European companies - distance selling of goods and services.

Companies may expect success in e-business in Sweden (+ 24% in 2007). Is everything OK about VAT? Sales to private people over the thresholds imply to register for VAT. In Sweden, the threshold is quite low: 320 000 sek per year (approx 34 000 euros). It means that companies selling goods over this amount must register in Sweden and invoice Swedish VAT. In some cases, it might be useful to register, just for sales policy reasons, it might ease the business. Some of our clients choose to register just for that: ease the business.

Companies need to have safe business and we aim to help: solving VAT issues means that we help our clients just forget them! And let them work with their business. We act for VAT representation in Sweden in case of distance selling of goods and services. We perform the whole process: VAT registration, VAT returns and keeping records in Sweden according to the local rules. Due to our automatic routines, we can offer these services at a very low fee rate. We are VAT representative in Sweden approved by the Swedish Tax Office.

For all companies special price for VAT registration in Sweden 200 euros (just until 31 - 12 - 2008)

Companies employing personel (accounts managers, sales force) without permanent establishment in Sweden can also benefit from our services in the field of salaries administration.

VAT Services in Sweden for non European companies - distance selling of electronically supplied services.

Due to our own efficient automatic routines as well as the Swedish Tax Office's high level of technical efficiency for overseas companies' declarations, we can offer this service at a very low fee rate.

VAT Refunds for all companies

For companies without permanent establishment in the country where they claim and VAT refunds in case of VAT invoiced on all types of purchases of goods and services and triangular trade. We perform the claims in the whole Scandinavia and the whole Europe on behalf of European companies. We act on behalf of Scandinavian companies for a VAT refund elsewhere in Europe and for European companies that have been billed with Swedish, Danish, Norwegian and/or Finnish VAT in Scandinavia. We contact the suppliers in case of adequate document needed. Vat refunds applications especially in **Sweden Finland Norway Denmark Iceland**

Tröskelvärden vid distansförsäljning / Thresholds in force in the EU for sales at distance April 2008

Skatteverket Swedish Tax Office

Med distansförsäljning avses att en vara transporteras av säljaren eller för dennes räkning från ett EG-land till en köpare i ett annat EG-land när köparen inte är skattskyldig till moms. Postorderförsäljning och internethandel är exempel på distansförsäljning.

I varje medlemsland fastställs en s.k. omsättningströskel. När försäljningen från Sverige till en inte skattskyldig köpare i ett annat EG-land överskrider det värdet, blir den svenske säljaren skattskyldig till moms i det landet. Där ska han registrera sig till moms och lämna momsdeklarationer. Omsättning under tröskelvärdet beskattas som omsättning inom Sverige. För nya transportmedel, t.ex. bilar, eller punktskattepliktiga varor, t.ex. cigaretter, gäller särskilda regler.

Tröskelvärden för omsättning vid distansförsäljning inom EG i april 2008/Thresholds for distance selling within the EU
